

Affordable Quality
and Reliability

FWFC Floor-Wall to Floor-Ceiling System

The Del Medical FWFC System offers an **affordable, flexible design** ideal for hospital radiology departments, medical imaging centers and orthopedic facilities looking to maximize space and minimize room modifications. Secure 10 ft floor and wall mounted rails allow for effortless longitudinal travel and quick positioning.

Its tube stand features an analog angulation dial, pressure activated 180° column rotation, electric vertical and longitudinal locks, and a 9 in. transverse travel range for total table top accessibility.

RT100 Table

The sturdy RT100 four-way float top table delivers **exceptional durability and comfort**. Its all steel welded base structure can withstand patient weights up to 700 lbs. (318 kg). A front-facing electric lock release foot treadle controls all movements. This provides effortless operation of the smooth, stain resistant fiber resin table top.

The RT100's pedestal base can be used to house generator electronics to save space and reduce unwanted clutter.

VS100 Wall Stand

The counterbalanced VS100 features electric locks that allow for easy positioning. Its extensive vertical travel provides technologists with a comprehensive range of exams from skull to weight bearing knee and ankle exams. The VS100 is our **most compact wall stand** making it a great option for tight room configurations.

Premium Upgrades

EV800 Table

The durable EV800 elevating four-way float top table delivers **outstanding safety and usability**. Featuring an exclusive four-point lift system and exceptionally quiet motor-drive, its smooth, scratch resistant table top lowers to a height of just 22" to ensure stress-free patient transfers and adjustments. Offering a high patient weight capacity of up to 800lbs (363 kg), stable continuous movement is possible through conveniently placed recessed foot treadles and table-side controls, suitable for **increasing technologist performance and satisfaction**.

VS300 Wall Stand

The reliable VS300 wall stand utilizes electromagnetic 'fail safe' locks to maintain operator **confidence throughout the imaging procedure**. Full receptor movement to the floor, patient-side handgrips and optional overhead handgrips promote efficient upright exams without placing unnecessary strain on the patient.

Designed for convenience, the VS300 technologist handgrip permits relaxed vertical travel by angling with the operator's wrist as the image receptor is raised or lowered.
